Claims 18-30 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on November 10, 1999.

Claims 49 and 61 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The terminology "wherein the antimicrobial agent has an antichlamydia activity equal to or greater than that of azithromycin" is not disclosed or suggested by the specification as originally filed.

Claims 31, 33 and 49 are rejected under 35 U.S.C. 102(b) as being anticipated by McLachlan (U.S. Patent No. 4,419,365) for the reasons set forth in the Office Action of May 9, 2005.

Claims 31, 33, 34, 36-40, 49-52, 61 and 62 are rejected under 35 U.S.C. 103(a) as being unpatentable over McLachlan (U.S. Patent No. 4,419,365) in combination with Elsberry (U.S. Patent No. 5,846,20) or Xiaotao et al (U.S. Patent No. 6,255,347) for the reasons set forth in the Office Action of May 9, 2005.

Applicant's arguments filed November 14, 2005 have been fully considered but they are not persuasive.

Applicant has provided a declaration stating that until the dates of the invention by applicant, tetracycline was not recognized to have beneficial effects in Alzheimer's

Art Unit: 1623

Disease. Applicant's arguments and the Declaration have been considered but have not been found persuasive since McLachlan teaches that tetracycline is recognized to have beneficial effects in Alzheimer's disease (column 3, lines 55-60). Note that a reference relied upon is applicable for everything it teaches.

Claims 41-48 and 53-60 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
